

Project 1: Documentation

The goal of this website is to showcase my knowledge for the Web Design section of the CISC 1600 curriculum. The target audience for this project is the general population as the content provided throughout this page does not include any technicalities pertaining to any niche.

1.1 Colors

The colors throughout the website is used in a contrasting manner. That is, if the background is a dark color, the foreground must consist of lighter colors to ensure readability.

- Black Bean (#330004)
- Ivory (#FFFFFF4)
- Glitter (#E7ECEF)
- Salmon (#FA824C)

1.2 Fonts

Due to the complexity of the website, there will only be one font being used. However, the key differences will be with the font sizes, font weights and, line heights. Headings have font weights of 700 while paragraphs have font-weights of 300.

- Lato (<https://fonts.googleapis.com/css?family=Lato>)

1.3 Content

The content of the website is shared through means of a text-based with the few images providing context to their related content.

1.4 Site-Map

The project comprises of three pages: a home page, an about page and, a project page. The home page navigates to the about page, the project page and, the class website. The about page navigates to the home page and, the project page contains no navigations.
